

Milestone Relocation Solutions,

For our first time using movers, this was a wonderful experience. The two employees worked fast and carefully to make sure that we had everything done in the allotted time. Jack and John arrived on time contacting us by phone call prior to the arrival. They asked us a few questions about the furniture and went to work right away. The guys did not waste any time and we appreciated that since we were billed by the hour. Most importantly they really knew what they were doing and made the whole process look so easy! I have to say that we were skeptical while hiring the movers to begin with however the end result was very pleasing. It would have taken us an entire day to do what your guys did in a couple of hours! I will never make another move in Atlanta without using Milestone. Thanks for a GREAT service!

John & Kim Young
